

## Summer Student Internship – Geology

Denison is redefining mining by **Powering People, Partnerships and Passion**. We are trailblazers in uranium mining, adopting an innovative climate positive approach to mining by deploying ISR methods and building durable partnerships with Indigenous groups in northern Saskatchewan. As a *Certified™ Great Place to Work®*, our success is fuelled by empowering employees with engaging work, unique development opportunities, and lucrative rewards – resulting in an exceptionally talented, diverse, and motivated team throughout all levels of the organization. Flexible and agile thinking ensures our workplace is one where talent thrives, innovation flourishes, and people have fun leveraging their passions to create powerful partnerships and positive results.

### SUMMER INTERNSHIP PROGRAM:

Denison is recruiting for several summer internship opportunities for university students based in Saskatoon. The work terms run from May to August, and all internships are paid positions. Opportunities are available in the following areas of study:

- Geology
- Metallurgy
- Hydrogeology
- Environmental Sciences
- Engineering

Students who are hired to work in the Saskatoon office follow regular Monday to Friday office hours. Students who work in field locations work a fourteen day in / fourteen day out rotation. Certain roles will offer the opportunity of a mixed office / field location experience.

### POSITION OVERVIEW:

We are seeking a motivated Geology Student Currently enrolled in a Geology, Earth Sciences, or related program to join our team for summer internship. This role provides hands-on experience in mineral exploration, geological mapping, sampling, data analysis and evaluation projects. The successful candidate will work alongside experienced geoscientists, gaining exposure to real-world field and office-based geological work. The **Geology Student(s)** will report to the Technical Services Manager or the Lead Geoscientist and will work primarily in office with occasional travel to the Company's field location(s).

Our ideal candidate:

- Currently enrolled in a Geology, Earth Sciences, or related program at an accredited university.
- Strong interest in mineral exploration and fieldwork.
- Ability to work in remote field locations and varying weather conditions.
- Basic knowledge of geological mapping, rock identification, and sampling techniques.
- Proficiency with Microsoft Office, GIS software, and geological databases is an asset.
- Strong problem-solving, analytical, and organizational skills.
- Excellent communication and report-writing skills.
- Safety-conscious with a strong attention to detail.

### YOUR RESPONSIBILITIES:

- Assist with geological mapping, core logging, and sampling in the field.
- Support data collection, analysis, and interpretation using GIS and geological software.
- Participate in site visits and assist in fieldwork, including sample collection and documentation.
- Participate in evaluation projects through the assistance of advanced exploration.

- Prepare reports, maps, and presentations summarizing geological findings.
- Maintain accurate and organized field notes and records.
- Follow company safety policies and environmental regulations.

#### **TO APPLY:**

Submit your resume, current transcript of grades and cover letter, by EMAIL: [jobs@denisonmines.com](mailto:jobs@denisonmines.com) and put the title “**Summer Internship – Geology**” in the subject line.

*We appreciate the interest of all applicants; however, only those selected for interviews will be contacted.*

*All applicants must be eligible to work in Canada.*

#### **OUR COMMITMENT:**

Denison is dedicated to creating employment opportunities for Indigenous individuals and residents of the communities in which we operate. We encourage Indigenous applicants and those from these communities to apply and to voluntarily provide relevant information in their application. Preference will be given to qualified Indigenous candidates.

At Denison, we place a high value on diversity of backgrounds and experience. We strive to create an inclusive workforce that reflects a wide range of cultures, backgrounds, and viewpoints. Our team members are empowered to excel based on their personal merit, qualifications, experience, ability, and job performance. Reasonable accommodation during the hiring process is available upon request.

#### **OUR COMPANY:**

Denison Mines is a publicly traded company and a Certified Great Place to Work® with a 70-year legacy of uranium mining, exploration, and development in Canada. The company has an effective 95% interest in its flagship Wheeler River Project, which is the largest undeveloped uranium project in the eastern portion of the prolific Athabasca Basin region of northern Saskatchewan. Denison also owns interests in the McClean Lake uranium mines and mill, the Midwest project and the Waterbury Lake project. Collectively, Denison has a project portfolio covering ~385,000 hectares in northern Saskatchewan. For more information visit our website at [www.denisonmines.com](http://www.denisonmines.com).
